

I would like to express my concern about the no call list, this is an excellent service in the State of Indiana and I would hate to lose the right not to be bothered by unsolicited callers. I work and when I am home, I appreciate hearing from friends and family but do not like my phone line tied up by telemarketers or unsolicited advertising. I am a caregiver and need my line clear for calls from my aging mother. Thank you for letting me air my displeasure at the report that our no call list may be taken away. Marlene Fernbaugh
